Coal Coming In—Coal continues to arrive in this city, 20 cars being received from Wyoming Sunday, which greatly relieved the local shortage. It is true that the local yards have exhausted their reserve supplies, and are dependent on the railroads, but prominent dealers and the sallwards. prominent dealers find the railroads are straining every nerve to relieve the situation, and with no heavy storms in immediate prospect, there is no occasion for fright. The clerk sent the ring up to the work room with instructions to send back a simi-lar ring with a flawless stone, and an envelope was sent back containing the two rings. The boy instead of handing the packet to the clerk, gave it to Mr. Call who thought only the one ring was there, and threw the envelope with the other ring into the gutter. He was surprised later to be guiter. He was surprised later to be called up by telephone and asked to return the extra ring. Mr. Call hurried back to the gutter and prodded around for some time but was unable to recover the treasure.

COUNCIL HEARS ABOUT STREETS

Butchers and Grocers Call Attention to Deplorable Condition of Crossings.

PETITION IS PRESENTED.

Resolution Introduced Anthorizing Street Supervisor to Employ Enough Men to Remedy the Evil.

The attention of the city council was called last night to the deplorable condition of the streets throughout the city and particularly as to the crossings. A petition to that effect was received from the Retail Butchers' and Grocers' from the Retail Butchers' and Grocers' association of this city and it was asked that the matter be attended to and remedied at once. The petition called particular attention to the bad condition of the crossings of both railroad and street car tracks and also the practise of those companies of allowing cars to stand on crossings for several days and block traffic. The Utah Gas & Coke company was complained against also for the manner in which it is leaving its excavations after being filled up. Councilman Preece introduce d a resolution authorizing the street supervisor to employ enough men street supervisor to employ enough men to clean the streets and crossings. Both his resolution and the petition from the association were referred to the streets committee for considera-

Wells created somewhat of a sur-when he introduced a resolution in-structing the city recorder to request the business men on East Temple street to use that name which is the proper one for the street instead of Main street. In support of his resolution he declared that the name East Temple signified something to the people of this city while the name Main street was of no significance whatever and was of no significance whatever and was used in every little country town in the United States. He thought that the business men should use the proper name for the street in their adver-

Fernstrom, Black and Hobday op-posed the resolution and argued that the council could not compel the citi-zens to use the name of East Temple zens to use the name of East Temple street if they preferred to call it Main. They believed that custom had already changed the name of the street to Main street and it would be impossible for the council to bring about any change.

President Davis called attention to the feat that an ordinance is now need.

the fact that an ordinance is now pending changing the names of some of the streets of the city and that it would be well to let this matter go over until that ordinance is up for consideration and then decide what to do.
In line with that suggestion the resoluion was laid over to come up with the ordinance.

The mayor's veto of the resolution The mayor's veto of the resolution requiring the owners of private alleys in the business district to pave the same within 30 days from notice or have the alleys closed by the board of health, was received by the council and was amended so as to allow the owners 70 days within which to do the paving, and was sent back to the mayor for reconsideration. ARGUMENT OVER PAINT.

The matter of having street sprinklers painted before spring was the cause of considerable argument. The sprinkling committee reported in favor who offered to paint the wagons at \$18 each, and favored having the work done by the city employes at a cost not to exceed \$23 for each sprinkler. Black objected to the report, and declared that the Roche bid should have been accepted. Martin said that the city would not get a good job if the work was awarded to an outsider and hence the committee had decided to let the city do it. Crabtree and Black then favored letting the contract to the lowest bidder. Holley thought that the city would get beat any way, and he favored letting the work by contract and it would not amount to so much. and it would not amount to so much The result of the argument was that the matter was referred back to the

The ordinance pertaining to the punishment of owners or keepers of victous dogs was placed on its third reading and was passed.

Next Monday evening being Christmas eve, the council will not hold its regular meeting, but adjourned until Thursday evening, Dec. 27. THE MORAN BILL.

Mayor Thompson sent in his disap-proval of the bonus of \$9,150 in favor of P. J. Moran on the Big Cottonwood conduit contract for the completion the conduit ahead of contract time. The bonus was approved along with a partial estimate passed by the council last week and was also approved by the mayor, but later was discovered by him and disapproved. The payment him and disapproved. The payment of the bonus was stopped by a notice from the mayor to the auditor. The matter will be looked into by the finance committee and also by the board of public works.

STRONG PROTEST.

A strong protest was received from the W. A. Stickney Cigar company and other merchants on the east side of East Temple street between Second and Third South streets against the obstruction of the sidewalk in front of the new Utah Savings & Trust com-pany building. The communication stated that work has been suspended on the building until April 1, and that the obstruction damages the bustness of protestants. After considerable argument the protest was referred to streets committee with instructions to act at once AFTER THE GYPSIES.

J. H. McCoy and others petitioned the council to have a band of gypsies removed from the corner of Third West and North Temple streets where they have camped for some time and made life rather unpleasant for those who reside in that vicinity. The tioners state that the gypsies been rather lax in their conduct and have also allowed considerable refuse to collect on the lot and have become a nuisance and a public menace. Fernstrom suggested that the matter be referred to the sanitary committee, which caused bearty laughter from all the councilmen. The chief of police was instructed to look into the

When you want to show others that you have reformed, go home and lei your family get acquainted with the fact. When you want to show yourself at your best, go home and do the act there. Three of Them Wanted on the Charge Of Embezzlement.

JAPS UNDER ARREST.

A new phase of the case against the Japanese embezziers who are wanted in Boxelder county arose yesterday when Sheriff Josephson tele-phoned to Governor Cutler that he had received a telegram from the authorities at Tucson, Ariz., stating that the three men are under stating that the three men are under arrest there. The names of the Japs are Okazaki Ishitaio, Nakayama Idutaro and Nagamoto Pashichi, and they are wanted in Boxelder county for embezziement. They were supposed to have departed for Japan, and the matter of their requisition had been taken up with the state department at Washington, D. C., but nothing further will be done in that matter until the arrest of the Japs in Arizona is thoroughly investigated, as it may be possible that they are the men wanted, as they are said to answer the descriptions sent out, almost perfectly. However, the authorities at Yokohama have been rotified and furnished a description of the men, and if they should arrive at that port today or tomorrow, they will be arrested and held awaiting further instructions.

Foley's Honery and Tar has cured many cases of asthma that were considered hopeless. Mrs. Adolph Buesing, 107 West Third St., Davenport, Iowa, writes: "A severe cold contracted twelve years ago was neglected until it finally grew into asthma. The best medical skill available could not give me more than temporary relief. Foley's Honey and Tar was recommended and one fifty cent bottle entirely cured me of asthma which had been growing on me for twelve years. The pictures accompany a very pretty story printed in the St. Paul Pioneer Press, which is headed four columns wide, "Pretty Dancer's Summer Life on a Ranch Farm in the West." The scenes depicted are all snow effects showing the Hermitage, cabins, etc. An interview with Papinta, the fire dancer, who is going over the Orpheum circuit, follows. It appears that the ranch in question has just been purchased by her in southern California (hence the snow scenes). The interview concludes with a cordial invitation on the part of the dancer to all her friends to visit her at Papinta ranch "on the wide porch there will always be comfortable chairs for all who come."
